

Triad Extreme Awning

Designed for the awning maker, this Triad Extreme Awning is efficient, versatile, quiet and easy to operate on a wide variety of coated and noncoated industrial textiles.

- Designed to be used with the Thermal Bonding Tape
- Easy one man operation
- Can weld PVC, acrylic, shade cloth and screen mesh fabrics
- Provides hands-free, single person operation from a floor or table surface

Triad Extreme Awning Seam Type:

T300 Extreme Shade

The T300 Extreme Shade combines versatility and precisely controlled operating parameters with an ergonomic design and interface for easy operation, speed, accuracy and productivity. The T300 Shade comes set up for high speed overlaps for the production of acrylic/PVC awnings and marine covers.

- Designed to be used with an acrylic welding tape
- Easy one man operation
- Can weld PVC, acrylic, shade cloth and screen mesh fabrics
- Fastest welding speeds in the industry

T300 Extreme Shade Seam Type:

T600 Extreme Shade

The T600 Extreme Shade combines versatility and precisely controlled operating parameters with an ergonomic design and interface for easy operation, speed, accuracy and productivity. The T600 Shade comes set up for high speed overlaps for the production of acrylic/PVC awnings and marine covers.

- Designed to be used with an acrylic welding tape
- Easy one man operation
- Can weld PVC, acrylic, shade cloth and screen mesh fabrics
- Fastest welding speeds in the industry

T600 Extreme Shade Seam Type:

112 Extreme

The 112 Extreme will weld acrylic and PVC fabrics. The 112 Extreme will produce the fastest seams in the industry! Our dual vacuum and high speed welding system ensures perfect seams at high production speeds.

- Designed to be used with our Acrylic Welding Tape
- Easy one man operation
- Can weld PVC, acrylic, shade cloth and screen mesh fabrics
- Fastest welding speeds in the industry

112 Extreme Seam Types:

Impulse Extreme

The Impulse Extreme incorporates an effective thermo-impulse sealing technology with precision controlled welding parameters that will create great looking seams.

- Designed to be used with an acrylic welding tape
- Welds all seam types required by awning, blind, shade and screen makers
- Can weld PVC, acrylic, shade cloth and screen mesh fabrics
- Automatic hem and pocket operation
- Can be configured for welding zipper
- Available sizes are 3.0, 4.5 and 6.0

Impulse Extreme Seam Types:

SeamSTRONG

The SeamSTRONG is an advanced adhesive technology custom formulated for the technical textile and digital textile markets. This advanced adhesive technology system provides a strong, watertight, long-lasting, aesthetically pleasing and flexible seam.

- Digitally controlled, traversing head for consistent adhesive application
- Recipe storage of fabrics and parameters for quick setting recall
- Multiple seam configurations

SeamSTRONG Seam Types:
