

T3 Extreme

For Smaller Sign Shops

The T3 Extreme was designed with the smaller business in mind. This efficient hot wedge welder will produce all the seams required for the banner, sign, and awning maker.

- Its compact size will fit into almost any small business
- Simple controls for easy operation
- Compatible with nearly all worldwide power sources

T3 Extreme Seam Types:

T300 Extreme Edge

For Large Banner Jobs

The T300 Extreme Edge combines versatility and precisely controlled operating parameters with an ergonomic design and interface for easy operation, speed, accuracy, and productivity. The T300 Edge comes set up for high speed hems, pockets, and rope-in-hems to finish your banners, signs, and printed media.

- Finishes the edges of all screen-printed and digitally printed products
- Handles small and large jobs
- Welds PVC, Polyethylene, and more

T300 Extreme Edge Seam Types:

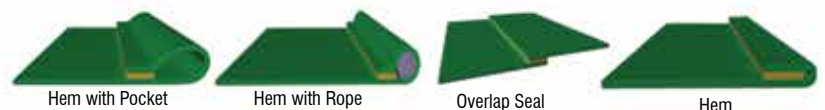

Impulse Extreme 3.0

For Welding Digital Textiles

From vinyl to digital textile fabrics, the Impulse Extreme 3.0 is the only complete finishing system for every sign shop.

- Make big signs from narrow prints
- Hems and pole pockets
- Finish all jobs in-house

Impulse Extreme 3.0 Seam Types:

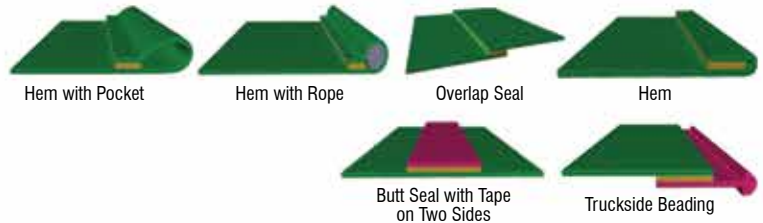

112 Extreme

For Grand Format Printers

The 112 Extreme is designed for the grand and large format printers. It will produce the fastest seams in the industry! Our dual vacuum and high-speed welding system ensures perfect print alignment at a pace suitable for keeping ahead of your printing.

112 Extreme Seam Types:

Digitran T3

For SEG Graphics Systems

The Digitran T3 System provides an exclusive, all-in-one sewing and welding solution. The sewing system enables you to sew your SEG graphics systems as well as an array of digital textile hanging solutions. The synchronized transport system for sewing and welding makes it simple for your operators to handle small or large projects in one workspace area. SEW, SEAM, OR BOTH!
